August Meeting

Because of Oshkosh, 1978, the next meeting of Chapter 569 in Lincoln will be on Tuesday, September 5th. For those of you that will be at Oshkosh, Chapter 569 is planning a get-together, similar to that of last year. When you arrive at Oshkosh, you will be able to sign up for the Monday evening (6:15 PM) chicken dinner picnic that will be held in Ollies Park, just behind the Antique/Classic Barn. Sign up sheets will be posted on the bulletin boards: by the gate that leads to the home-built parking (just east of the International Visitors Tent) and by the Information Booth (just north of the Antique/Classic parking area. Sign up by 1:00 PM on Monday, July 31st. The chapter will buy chicken dinners at KFC, and have them at the picnic grounds at 6:15, where you can then pay for each dinner ordered.

The Chapter 569 Club House

On Saturday and Sunday, July 8th & 9th, a few chapter 569 members worked very hard on cleaning and fixing up the house at Arrow Airport, which is to become the Chapter 569 clubhouse. Those who worked were; John Camden, Eldon Kriemer, Harlo McKinty, Don Mosher, C.G. reinmuth, Lowell Satterlee, Bill Sheahan, Terry Sheahan, Jim Stephens, Tom Trumble, Jerry White, and Rollie Woodruff.

The house is far from being finished, and is going to need much more work done on it before we can use it for our September meeting. I am setting up our next work day to be Saturday, August 26th from \*8:00 AM to dark. I expect those members who haven't helped with the house to do so on the 26th, or to go out anytime between now and then and continue the painting of the outside (the paint is in the house). Other work is also needed, if you would call me (488-4193) I will describe what needs to be done. REMEMBER, if this club is to survive, then more than just a handful of members must show an interest and participate in the work!!

July 15th Stinson Fly-in

On Saturday, July 15 Bill Sheahan, Lowell & Deanna Satterlee, Tom Trumble and Jim Stephens flew to the Stinson Fly-in in Minden, NE. Over 55 Stinsons were at the fly-in, from as far away as Alaska, and showed the enthusiast the great diversity of airplanes built by Stinson. The fly-in was very well organized, with workshops on fabric in the morning and engine care in the afternoon, with a barbaque and square sance that evening.

Add These Names To Your Chapter 569 Membership Roster
