

NEWS LETTER

EAA CHAPTER 569

LINCOLN, NE.

DECEMBER 1976

OFFICERS (outgoing) Rollie Woodruff Pres. 3168 Puritan Ave. 488-3150, Don Shoemaker V. Pres. 3935 Folsom 423-3928, Tom Trumble 235 Belmont Ave. 435-6680, (incoming for 1977) Buck Postlewait, Pres. Box 525, Waverly, Ne. 786-2342, Bob Murray V. Pres. 3250 So. 12 Apt. C15 423-8001, Art Craft Scy-Tr 3401 Grimsby Lane. 423-9675.

NEXT MEETING will be at the Town and Country meeting room 5619 "O" Street. Tues. Dec. 7 at 7:30 P.M.

AGENDA A group of unusual aircraft including the prototype skyote, a startling preformer, stopped here enroute to Blakesburg Antique airplane meet. An impromptu airshow developed and we will see movies of this by Eldon Kreimer. Ed Weaver will show movies he made showing gliding activities of the Frelin Soaring Club. Many of you have taken either movies or slides which we'd like to see so bring them along and we'll show what we can.

NEW MEMBER Member Carlyle Reinmuth's interest in the VariEze has infected his son Jim who has now joined Chap 569 to become our first father and son combination.

NEWS The little biplane Acroduster that we crowded around and saw being completed at our Sept and October meetings has been flown and we're expecting the details from builder-pilot Ed Bowes.--We have received a very nice thank you letter from Janice Jackson and thanks to one of you we have forwarded another \$100.00 to her.

Finding our mid-month-mini meeting of officers fell on the night of FAA safety meeting, we rescheduled, twelve members attended the safety meet, four brought their ladies.--Be sure to let me know if you want to go and see Omaha's Chap 80's Jud Bock and Bill Bouda making fiberglass lay-ups on styrofoam VariFze components.

As a member of both chapters I'm glad to see the beginnings of many exchanges between our two fine chapters which will shortly be exchanging membership rosters.

NEWS FROM NATIONAL-----The Benefits of much effort by EAA are shared by the almost 50% of the owners and builders of homebuild aircraft who are not members of FAA. National EAA headquarters would be pleased to have this percentage of FAA membership increased among this group as these people especially and EAA could do much for each other.

AIRCRAFT, PARTS, ETC.--As of the evening of Nov. 28th Mark Roisen of 303 Victor Ave. in Yutan, Nebr. had his 2 place-side-by-side Cassutt for sale, it has a Lycoming 125 with 325 since major, 150 on airframe, covered in 1973, has new paint, cruises at 140 and takes off at 80, is aerobatic, has new Alpha 200, Nav-com and is priced at \$3,000.00.

NEWSLETTER AND MEMBERSHIP INFO--As mentioned last month in order to expand and improve the newsletter your input is needed by the Pres. by the 20th. Guests are welcome at meetings and after visiting will receive our newsletter for the next two months. Our chapter dues are \$12.00 per year and we welcome new members to our chapter and strongly encourage membership in National FAA.

It's been a great experience helping to get this chapter started. Best luck to Buck, Bob and Art as they take over to make this a bigger and better chapter.

Sincerely from Mary and I.

Rollie
