CHRISTMAS PARTY

The Christmas Party was another resounding success. Many thanks to Jim and Janice Fix for the many hours they devoted to this activity, it was appreciated by all that attended.

The social hour and food were great. We don't often get to see the other half of the family, and of course seeing everyone all decked out in their Holiday garb was a treat.

Jim and Janice warmed up the group with their usual selection of humorous anecdotes and tall stories. Then humorous speaker Bill Palmer kept the pace going.

Then, when we thought we could laugh no more who should appear but the fantastic "Punctuation Quintet". They were almost more than I could stand. It must have cost the Fix family a great deal of money to get grown men to make a fool out of themselves like that.

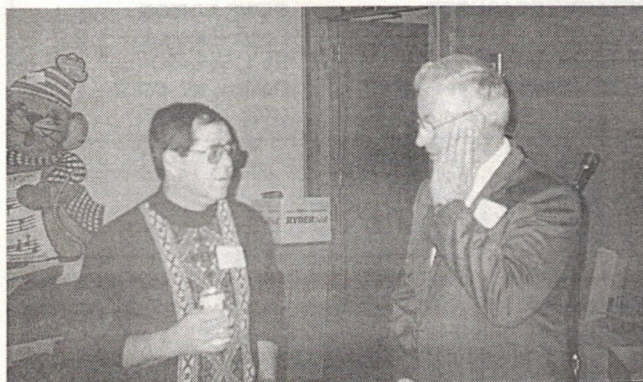

All in all it was a great time. I'm looking forward to next year.

Do you know where the largest airplane factory in the world was located in 1926? Would you believe right here in Havelock? One of the products of this plant hangs from the ceiling at the Municipal Airport.
