

JULY NEWSLETTER
EAA CHAPTER 569 - LINCOLN, NEBR.

Dear EAAr's and Friends,

Our next meeting is to be held on the 6th of July at 7:30 P.M. at Arrow Airport, 5401 North 48th St. in Lincoln. Those driving in please bring your own lawn chairs. We'd be glad to have anyone fly in and we will have chairs for those who may come by plane. I am sure you will find this meeting enjoyable as the Lincoln Sport Parachute Club is going to demonstrate parachuting and the Frelin Soaring Club has offered to give a glider demonstration. Both of these groups base their operations at Arrow and I see these people doing parachuting and gliding often and I have never failed to be fascinated by them. I believe you will find this meeting helpful, especially if you happen to be going to the EAA convention at OSKOSH, WISCONSIN. We'd like to encourage as many as possible to go as this is undoubtedly the world's greatest aircraft show. Veteran travelers to Oshkosh will be on hand to give helpful assistance to first timers. Those having travel space in plane or car available will have an opportunity to meet someone needing transportation, etc.

Reviewing last month's meeting---This was held at Pester's airport (formerly Eden's) and had 50 in attendance and included EAA Chap 544 Pres. Bob Near and V. Pres. Jim Fisher. Jim Stephens told us about building and flying his Smith Mini Plane and Fred Geschwender explained and treated us to a flight demo in the Thorpe Skyskooter. That meeting was very gratifying for me to have had a hand in bringing these fine people together and to see how much they seemed to enjoy talking to each other, especially at refreshment time.

You lucky Oshkosh trippers, please remember that everyone can't go and even those also making the trip can't see and hear everything that you will. We hope you will plan to share your '76 Convention vacation by taking pictures, movies, and slides which many will enjoy seeing as we show them at later chapter meetings.

Toward the end of the year as the weather forces us to have our meetings again indoors we're hoping to arrange an aviation oldtimers night. We need your help in locating these now elderly gentlemen and ladies who would be able to come and tell us how it was back then.

With Convention taking place during our normal meeting date for August, our next meeting is now set for Sept. 2.

We have been given several large cartons (approx 150lbs) of aircraft manuals which will be on display at the July meeting. I believe you will find these interesting and helpful. (Thanks, FAA)

Paid up members will receive a chapter roster which we want to have as complete as possible. We presently have 30 paid-up members and at least that many have indicated intentions of joining but have not gotten around to doing it. We are in good financial shape, have our state incorporation papers soon to be signed and would welcome additional members. Please call me or Sec. Tom Trumble so we can get the info needed for the roster of members.

Election time for EAA chapters is in October. We have many capable people within our chapter and I know of some who haven't joined yet who I feel would make a fine President of this chapter. I sincerely invite those people to improve this chapter by offering their services as an officer.

Sincerely,

Rollie Woodruff
