

July 1978 EXPERIMENTAL AIRCRAFT ASSOCIATION Lincoln, NE.
Chapter 569
Newsletter

July Meeting

Our July meeting will center around the fixing up of our clubhouse at Arrow Airport. President Bob Murray has set the weekend of July 8-9 for this clean-up/fix-up, according to the following schedule:

Saturday, July 8th from 8:30 AM until late afternoon.

Sunday, July 9th from 1:00 PM until late afternoon.

Bring one or more of the following tools: hand tools, drill, vacuum, extension cord, paint roller & pan, broom, wet mop & bucket, ect. I plan to work all day Saturday and will plan to bring a mower, rakes, axe and weed cutter for the clean-up of the yard surrounding the clubhouse.

President Murray is Leaving Chapter 569

Bob stopped over recently and informed me that he will be accepting a job with KFAB radio in Omaha. Bob will be presiding over the chapter through the July 8-9 clean-up, but will become a resident of Omaha by August 1st. Bob, we wish you the best in your new job. Thanks for your leadership these past two years.

Since Bob is leaving effective August 1, as Vice-president I will fill-out his term. I am looking for a volunteer who would be willing to take over the newsletter for the next six months. I know we have many members who could help out by serving as our newsletter editor.

Chapter 569 Fly-out

Bill Sheahan and I would like as many members of Chapter 569, as is possible, to fly together to the Stinson Fly-in (Minden, NE., July 14-16). We are planning to depart from Arrow Airport at at 9:00 AM on the 15th (Saturday) and return to Lincoln that afternoon. Those of you interested in going, please call and leave your name, whether you can fly and carry some passengers, or if you would like to hitch a ride; with either myself or Deanna (488-4193). Come-on Chpt 569 members, this could be fun!!

Up-coming Fly-ins

July 1-4 Midwest Aerobatics Championships
Council Bluffs Airport.
July 2 Flight Breakfast, Pender NE.
Airport.
July 2 Fly-in breakfast and airshow
Kearney Airport.

Chapter 569 Fall Film Festival

Harlo McKinty, a member of the program committee, has lined up another Classic Aviation Movie for this fall. The film has been scheduled for September. More details and tickets for you to purchase and sell will be in the August newsletter.

Shoemaker's Update

Because of a real concern over escalating costs of hanger rents at the LNK Municipal Airport, Chapter 569 members attended the May meeting of the LNK Airport Authority. Don Shoemaker stated that the other chapter members present were; John Zimmer, Dan Babcock, Duane Funk and Rollie Woodruff. Since the actions of the airport authority have an impact on all pilots in this area, Don has invited the authority to speak to the chapter. We are scheduling the October program for the visit by the airport authority.

Home-built Activities -July Update

Tom Trumble is currently working on a Cavalier, which is a 2-place side-by-side low wing home built capable of cruising at 140 mph. Tom just about has the wing ribs complete, and is ready to move on into the fabrication of the metal fittings. Progress on this home-built is rather slow, since the construction business leaves Tom with very little extra time.

Art Craft is currently building a Cassett. Art has the steel tube portion of the fuselage 90% complete, as well as all control surfaces finished. Art has on hand all necessary materials for the control system and the wings. Art is working with Ed Bowes, who is also building a Cassett. Art, we expect you to have your plane at Oshkosh next year!

For Sale

Larry Gitt has an 85% complete Focke-Wulf 190, with a Continental C-85-12 zero time power plant. Larry is asking \$5000.00(firm price) for this almost completed home built. Larry can be contacted during the noon hour at Geschwender Aeromotive, Inc, (phone # 470-3333).
