Sec-Treas.: George Wright
8215 Chestnut Lane
Lincoln, Ne 68510

Editor: Ted Oehlert
4301 Antelope Crk. Rd.
Lincoln, NE 68506

JUNE NEWSLETTER

JUNE MEETING: The next meeting of EAA Chapter 569 will be Tuesday June 3rd at 7:30 PM in the second floor employees lunch room at Duncan Aviation. Our program should be of particular interest to builder/owners of experimental aircraft. Joe Ciciulla, general aviation maintenance inspector, has prepared a program on certification and operation of amateur-built aircraft as well as certification of repairmen. A slide presentation on a typical 100 hour inspection will also be shown. Al Milana, accident prevention specialist, will be on hand to comment on accident prevention in general aviation.

Notify your friends and particularly aircraft builders as attendance at this meeting will fulfill one of the requirements for certification as a repairman.

Time permitting we'll have a couple of films from the EAA film library.

MAY MEETING: Our thanks to Jim Smisek for a most interesting technical presentation on the do's and don'ts of aircraft wiring. Some of the new terminals, connectors, wire, and insulating tubing are quite remarkable, for their use can certainly reduce the complexity and greatly improve the reliability of a wiring installation.

We understand Jim has already been asked to appear before Omaha's Chapter 80 to repeat his program.

ANOTHER FIRST FLIGHT: Ken Dahle received a builders patch at the May meeting for a successful flight of his Hapi-engined KR-2. Jim Stevens RV-3 was the first for this year, who's next?

OSHKOSH '80: That time is rapidly approaching - if you haven't already done so, you'd better get your request for rooms in the mail pronto! The Chapter has already requested that our members be grouped on the top floor of Gruenhagen Hall.
