Sec-Treas: George Wright
8215 Chestnut Lane
Lincoln, Ne 68510

Editor: Ted Dehlert
4301 Antelope Crk. Rd.
Lincoln, Ne 68506

MARCH NEWSLETTER

MARCH MEETING: Chapter 569 will be holding their March meeting at the brand new facilities of Welders Service Center of Nebraska on Tuesday March 3, 1981 at 7:30 P.m. Leo Mahon and Dan Smart, Pres. have arranged a welding demonstration that should be of interest to those of you planning to undertake construction of an airframe.

Welders Service Center is located 2 blocks North of Cornhusker off of 20th street. The address is 200 Judson (on the East side of 20th).

LEGISLATURE RECEPTION: Chapter 569 was represented by six members who attended a February 19th get acquainted session hosted by the Nebraska Aviation Trades Association. Lots of aviation dignitaries were in attendance but few senators. Nevertheless, it was a good opportunity to meet and talk to others with an interest in General Aviation.

AIRPORT PETITION: A petition is being circulated asking for the establishment of a Lancaster county airport to handle the needs of light aircraft owners. If you are a Lancaster county resident and have not already signed a copy of this petition you'll have a chance to do so at our March meeting.

CHAPTER DUES DUE: Only a few hold outs have not paid their 1981 local chapter dues. Next month's newsletter will list current members who have not joined up for this year. In the event that they may not be receiving their copy of our newsletter, if you see the name of a neighbor or friend, give 'em a call and remind them that we still need their support to make our local chapter an effective voice in Nebraska aviation.

OSHKOSH RESERVATIONS: The university housing office has recently been reorganized. We have it on good authority that our requests for rooms will be taken care of to the satisfaction of everyone. For those of you who were afraid your deposit checks had been lost, they are not, they just haven't been deposited yet. We should receive some notification of room assignments shortly, so we have to assume everything is "on course".

ML -OSHKOSH: At the February 23rd meeting of the Flying Conestoga's, a decision was made to form a planning committee to work with other organization's committees in working out the details for a fall fly-in event at the Beatrice Airport. Chapter 569's event chairman Floyd Olson will be looking for volunteers to work with him in coordinating this event. Hopefully we can

involve other EAA chapters, (Omaha 80, Hastings 544, and Fairbury 680 take note) and aviation oriented groups to make this an event with sufficient interest to attract spectators from all over Nebraska, Kansas, and Iowa. It should be a fun weekend where you can meet new friends, swap stories and ideas, learn something about aircraft construction or just wander down the flight line looking at aircraft. The whole chapter is going to have to pitch in to make this event a success. How about it gang!?

GENERAL AVIATION OPEN HOUSE: The Lincoln Area Pilots Association has tentatively set June 14th as the date for display of aircraft. Flight demonstrations and maybe even a little aerobatics. Our chapter has been asked to participate. Ron Epp may be able to provide more details at our March meeting as plans develop.

WELCOME NEW MEMBERS:

Roger Aspersgren	Rt. 1, Denton
Richard Miller	Lincoln
Jim Daser	Lincoln
Ed Garner	Adams

Ed has moved to the Lincoln area from Fall City and has a Garnerized 'Lil Toot biplane that hopefully we'll see at some of our future happenings. Its worth studying closely as Ed has incorporated a number of ideas that make his bird one of the fastest.
