APRIL 1990 NEWS LETTER

The next meeting of Chapter 569 will be held on Tuesday, May 1, 1990 at 7:00 PM. (Please note the change of time to 7:00 PM instead of 7:30 PM as is usual. This change was necessary to give us time to do all which is planned for this fun night, as we are to visit several modern-day airplane factories which are quite numerous now in Lincoln.

Our first stop of the evening will be at the Roger Aspergren home at 4001 S W 84th Street. This is approximately 3 miles south of the Emerald corner on the west side of the road. If you can't make it in time for this one, then feel free to join us at the next one along the line.

The second stop will be at the Andy Bajc factory a 2746 D Street, Lincoln, Nebraska. (I don't think you need directions for this one.)

The last visit will be at the airplane factory owned by Terry & MaryAnn Holtsclaw in the city of Waverly. Waverly, in case you don't know, is the next large city just to the north-east of Lincoln. A radial of about 060° will get you fairly close. Keep in mind that the runway is only long enough for the smallest ultra-lights. In case you are driving, it is 14340 Castlewood in Waverly.

The fourth stop is more of a business place, and in fact a short business meeting will take place there. This will be at the Sports Page at the southwest edge of waverly. (Keep in mind that it is "8 hours from bottle to throttle," even if you are driving, but do have a good time!)

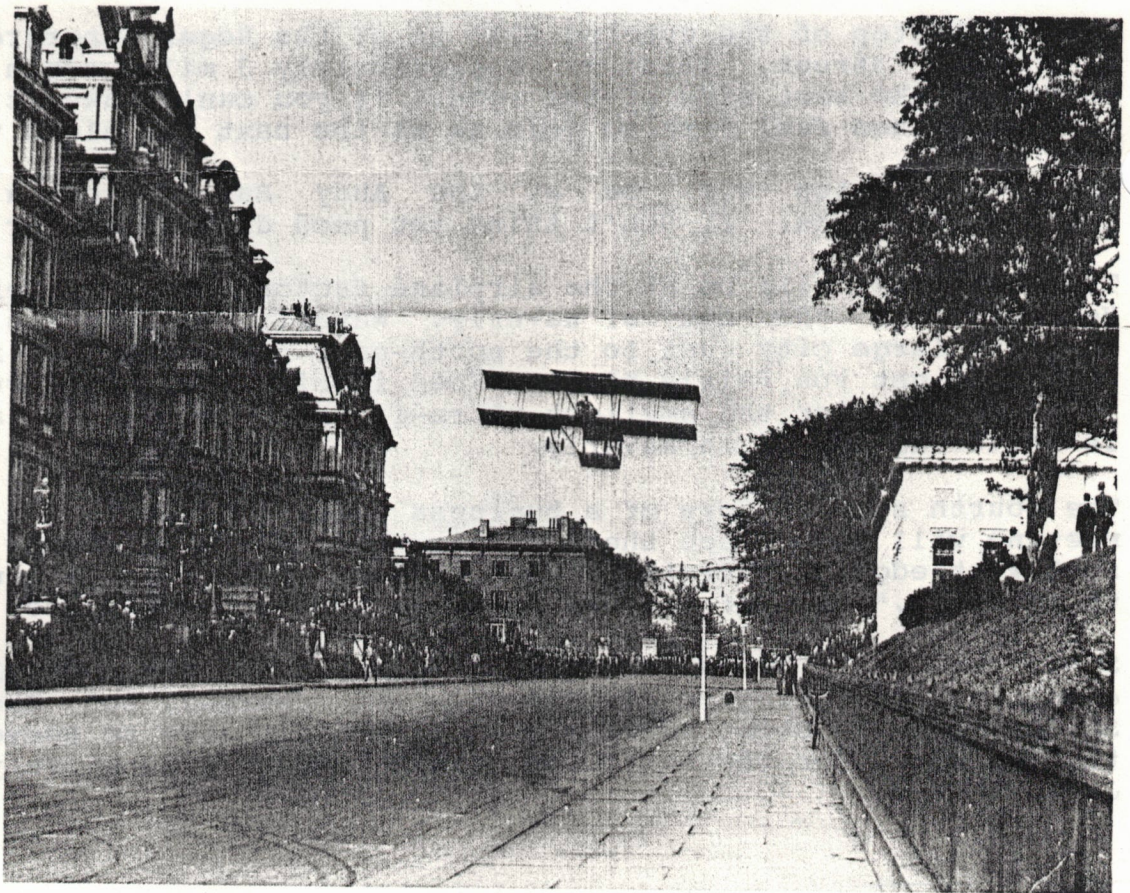

Since we will be meeting at the Sports Page, the scheduled refreshment committee consisting of Jim Stevens (in charge), Don Shoemaker, Dwight Snyder, George Stout and Jim Troidl will not have to serve. We will ask them to serve for the following meeting which is tentatively planned for June 5th.

We currently have 47 members in our club. There are surely more than 4 people in Lincoln who are interested in aviation. For this next meeting, and each meeting thereafter, why not ask your neighbor or someone else interested in aviation to come along with you. When they find out how much fun flying can be, they may wish to join us. I am sure it will be an enjoyable time for both of you. An interest in aviation is also a welcome means of keeping the kids busy and out of trouble. (I know when I was working on my private license, I didn't have time for anything else.) Our President has suggested that we organize a membership committee, and really push for members. I am confident we could easily increase our membership to 100 if people are properly motivated

The only fly-in breakfast I am aware of at the present time is the one for Sunday, April 29th at Nebraska City. If you know of fly-ins, please let me know the details, and I will put them in the news letter.

The original "soft landing"?

In 1910 Claude Grahame-White paid a flying visit to Washington, D.C., landing his craft in front of what is now known as the Old Executive Office Building. This historic photo from the National Archives shows Grahame-White taking off on his return flight.

Due to my wife's illness, I was unable to attend the awards presentation for the Lindbergh art contest. It must have been a success, as we received the nicest notes from the winners. Jared and his parents Ken & Betty Northup as follows: "We want to thank you for sponsoring the General Aviation Art Contest in memory of Charles Lindbergh's famous flight. Jared is thrilled with his trophy and very proud. The presentation was most enjoyable. It was a wonderful way to encourage children to be interested in history and proud of their artistic abilities. Thank you again." Betty & Ken Northup & Jared.

We also received one from Rebecca Larkens as follows: "EAA Chapter 569. I want to take this opportunity to thank you for the Charles Lindbergh Honorable Mention Certificate I received last Saturday at General Aviation Art Contest. Thank you." Rebecca Larkens.

I am attaching a couple of items of interest, furnished us by the EAA Headquarters. I am also inclosing a roster of our current membership. If we have missed anyone, be sure to squak 7700. (And for you guys and gals who ain't listed there, how about joining and helping us make it a bigger and better club? If your address label has a V above your name, it indicates you have been a visitor and this will probably be your last news letter unless you choose to join. Those with a C above your name, are and will continue to be sent, a complimentary news letter)

TREASURER'S REPORT FOR JUNE 1990 MEETING

Checking account balance forward - - - - - \$2408.99

Income:

1990 Dues - - - - 3 @ \$20.00	\$ 60.00

Total Expenses - - - - -	\$180.00	\$ 180.00

Checking account balance - - - - - \$2288.99

From EAA Headquarters:

"BECOME AN
AVIATION HERO"

A very fitting title for this year's program which allows EAA members traveling to and from EAA OSHKOSH '90 the opportunity to set a world record. Included with this issue of MonthlyGram are informational pages which have been taken from the booklet provided by the National Aeronautic Association (NAA). These pages outline the procedures and guidelines that establish a world record flight. Please share this information with the members of your Chapter and discuss the opportunities available in becoming a world record holder. The entire record attempt kit is available from the NAA. Please contact:

Art Greenfield
National Aeronautic Association
1815 North Fort Myers Drive
Suite 700
Arlington, VA 22209
Telephone: 703-537-0226.

AIRSPACE
DOCKET
90-AWA-1

The Department of Energy has formally proposed to the FAA that prohibited areas be established above and around any nuclear energy facility. This would also include airspace around a nuclear weapons manufacturing plant. Enclosed with this issue of MonthlyGram is a copy of EAA's position paper. You may wish to review EAA's position with respects to the proposed prohibited areas and make your Chapter aware of these recommendations and the hearings which are being held throughout the United States. If you have any questions regarding this matter or if you need additional details, please contact Jerry Walbrun, EAA Vice President Government Policy and EAA Programs at EAA Headquarters.

following members have paid their 1990 dues

NAME	ADDRESS	HOME	WORK	SPOUSE
Roger Aspergren	Rt. 1, 4001 SW 84 Denton	797-5825		Charlotte
