Your suggestions for improvement are requested.

NOVEMBER 1976

NEWS LETTER

EAA CHAPTER 569

LINCOLN, NEBRASKA

OFFICERS--Rollie Woodruff Pres. 3168 Puritan Ave. 488-3150--Don Shoemaker V. Pres. 3935 So. Folsom 423-3928--Tom Trumble Scy-Tr 235 Belmont Ave. 435-6680.

NEXT MEETING -- Tuesday 2, Nov. '76, 7:30 P.M. at ISCO (Instrument Specialties Co.) 4700 Superior St. Please use parking lot and door on west end of Bldg. Wives & girl friends are welcome. Omaha's Chap 80 Pres. Gary Carlson and John Bock, who attended VariEze seminar will demonstrate hot wire fabrication of wing sections and explain construction of Burt Rutan's remarkable 100HP, 160 MPH 2 place. We've got to find a way to repay the Omaha bunch for all they have done for us.

NEW MEMBERS--This month Mary called practically everyone of you to get info for a roster of all the 50 memebtrs of Chap 569 and a copy will be enclosed with this newsletter. Hereafter, any new member will be listed here along with their addresses and projects or interests.

NEWS UPDATE--Biggest news, of course, is the new officers for 1977. Buck Postlewait of Box 525 waverly Ph. 786-2342 was elected as your new president. Buck is interested in the Barracuda but not building yet, as he is currently working on his instrument rating. Your new Vice. Pres. is Bob Murray who has just obtained his private license. Bob is interested in one of Leon Davis' designs and he has just changed jobs as a broadcaster, now is with radio KLIN. Art Craft was not present at the election has found himself to be our new Sec't-Treas. Art is sales Mg. for Town and Country Realty, former military pilot and instructor and taking CFI refresher courses at Millard. Our thanks to Art for accepting these duties and for getting a head start on '77 by already improving our bookkeeping system. This chapter means a great deal to your present officers who wish only the best for your new officers. The new guys will find that we are not such an easy act to follow. I could not run as an officer and really wish I could have. We are bringing the new officers into all chapter activities to help with the change over to them and we hope they will continue to call upon our 16 Yrs of EAA experience in the future at any time we can help. The Jackson fund, still open, has topped \$1,100.00.

NEWS FROM NATIONAL EAA--Pres. Paul Poberezny is extremely concerned about ALL TIME HIGH in accident rate in our category aircraft. He reports that our safety record over the past 15 years has earned us extentions of our flying freedoms which may be taken from us if these accidents continue. Lets all do our part. More on this at the meeting.

AIRCRAFT PARTS ETC-- This space is available to assist in locating anything you may need for your project or to offer items which someone else may need. We have a request for any info packets on the various aircraft designs that you may wish to share. These could remain available to all memebtrs to save the \$ they cost us to get as individuals. We have received an interesting offer from Art Craft who has plans for the Fly Baby and has offered to furnish the materials if our members should care to build this as a chapter project. Let us know your thinking on this and any other project at the next meeting. Any project requires a warm space to use. Please be looking for such a centrally located area which we might be able to use.

NEWSLETTER & MEMBERSHIP INFO---We want to expand and improve the newsletter continually. Your input is needed and to be included in the next newsletter please get your item to the Pres. by the 20th as we also want to get these out earlier.

Guests are welcome at meetings and after visiting will receive our newsletter for the next two months. Our Chapter dues are \$12.00 per year and we welcome new members to our chapter and encourage membership in National EAA.

*Dear Art
You are the only person that I feel
I should apologize to for not running.
I appreciate your confidence but could
not do it. Hope I can some day.*
