

SEPTEMBER NEWSLETTER
EAA CHAPTER 569- LINCOLN, NE.

Dear FAAR's and Friends,

You'll not want to miss our next meeting to be held at 7:30 PM on September 7th at 603 "L" Street in Lincoln's beautiful warehouse area where we'll see and hear about several planes being built there. Parking space for our cars should be no problem in the evening but please bring your own folding lawn chairs as we will not be able to sit on the work benches etc.

Thru the careful efforts of member Art Curtiss and his legal associates we are now incorporated. Our Secy. Tom Trumble and I personally presented these papers at Oshkosh and we've now received our chapter charter. Your directors have suggested that this charter be available at our next two meetings for signing by all paid-up members.

Our chapter election is to be held during our October 5th meeting and we all want as officers the people who will do their jobs best. I sincerely hope we'll have an industrious and willing group of nominees from whom we can elect our new officers. Anyone, young or older, man or woman, who joins our chapter by or at our October 5th meeting will be invited to sign our charter, will be eligible to vote in the election that night and could be elected as one of our officers. I would really like to be relieved as chapter pres. This position done right requires someone willing to give freely of his time and who is willing to do a great deal of free work. In talking with other chapter Pres.s during several presidents meetings held at Oshkosh I found that their descriptions of their chapter varied greatly. Extremes of discriptions ran from really good, industrious and productive to pretty bad, lazy and even unhappy. I've concluded that any chapter becomes only what its members and officers are willing to make of it. Our chapter has tremendous potential in its membership and can be one of the best if we pick workers with positive ideas as officers and all pitch in with very essential assistance.

We've received an invitation (free to EAA members) from Beatrice's Flying Conestoga's to attend their Air Show-EAA/Antique Aircraft Assn. fly-in to be held on September 25th and 26th. An exciting array of events is scheduled both days with a banquet(\$6.00 per) at 7:30 PM on Saturday evening featuring the Bede Jet Team pilots as speakers and awards, etc. Call me or Robert Cornett (Beatrice 223-4026) about reservations.

We thank our state director of the Dept. of Aeronautics Rudy Peralez for accepting EAA's invitation and for traveling to attend our convention at Oshkosh, Wisc. I'm sure it was time well spent in behalf of Nebr. Aviation.

Newsletter policy---In addition to mailing our monthly newsletter to the 38 paid-up members of Chap. 569 we have been sending it to the approx. 60 National EAA members in the area. Many have told us they appreciated being kept informed and several of these have now joined our chapter. We intend to develop our newsletter into something you'll look forward to receiving. Expense and workload dictates that after next months newsletter we will be limiting the distribution of our newsletter to paid-up Chap. 569 members, EAA chapters within Nebr., and National EAA headquarters, and to state and federal aviation organizations.

Lloyd Thompson's work on the new NBC bank is done and he's been transferred. Not many of you knew him but he helped to pay for and arrange our very first meeting, the only one he was able to attend. Lloyd learned that National EAA needed a large sound amplifier so he brought one to the Oshkosh convention and invited me to present this with him in the name of our Lincoln Chapter 569 to a very pleased and grateful National Pres. Paul Poberezny. We thank Lloyd for all he did for us and for setting a fine example for some others of us in EAA to follow.

*My Glabetrotters
I hear I almost had you
talked into going to Oshkosh.
Next time, I try harder.
Rollie*

Sincerely,

Rollie Woodruff
