SEPTEMBER MEETING: The September meeting will be held on Tuesday, September 6 at 7:30 PM in the lunchroom of Duncan Aviation's old hangar on the south end of the general aviation building at Lincoln Municipal Airport.

We have a full program for the meeting, including election of officers for 1978, reports on the Lindbergh stop, and a film entitled "To save a life." The film covers emergency procedures for pilots who inadvertently fly into inclement weather. Be considering who you want as Chapter officers for next year and come prepared to nominate and support your candidates.

NEWS UPDATE: The Spirit of St. Louis has come and gone. Its visit here turned out very well, despite the bad weather. Over 3,000 people viewed it and the other planes. Over \$865 worth of commemorative items were sold to help finance the tour. Four new members were signed up.

The visit here was successful only because of the hard work done by so many Chapter 569 members and wives. Thank you.

Additional thanks go to committee chairmen:

Rollie Woodruff - Display  
Darrel McGhghy - Traffic & scrapbook  
George Wright - Aircraft & cruise  
Clyde Van Dorn - Program  
Bob Murray - Publicity  
Jerry White - Sales  
Bob Clark & Jim Stevens - Membership

A very special thanks goes to Dan Babcock who spent many long hours getting everything organized and did such a fantastic job.

Last months meeting, at Oshkosh was simply smashing. The refreshment committee, Mary and Rollie Woodruff, surpassed themselves with Kentucky fried chicken, lemonade, iced tea, and coffee for our get-together in the woods. However, they were outdone by the program committee. You should have seen the airshow they planned for us. We had as guests, several members of Chapter 80 and several people from the Navion Club.

I have received a new list of IA's who have agreed to perform pre-cover inspections on experimental aircraft. If you have need of this service, please contact me as the list is too long to reproduce here.

Another notice I received concerns adding rear wing ailerons to the VariEze aircraft. I understand this is mandatory prior to certification. Consult Rutan Newsletter No. 13 for more information on this.

FOR SALE: 1957 Tri-Pacer PA22-160, Licensed until May, 1978. Also plans for Aerosport Quail and VP11. Call John Camden 435-7351.
