SEPTEMBER 1985 NEWSLETTER

SEPTEMBER MEETING: Our next meeting will be held on Tuesday, September 3, at 7:30 P.M. at the Fix Prop Shop, 3710 Airpark Road. I will try to explain how I unbend and recondition propellers and give you some tips on prop maintenance and care. Please bring a lawn or folding chair. The refreshment committee will be Eldon Kreimer in charge, Ken Lange, Donald Mach, Jim Mackie, and Wayne Martin.

The October meeting will be held at the Seward Airport on Sunday, October 13th. The Hastings and Omaha chapters will join us for a potluck picnic starting around 11:00 A.M. More about this in the next newsletter.

* * * *

It's hard to believe that the start of the school season is already here. Both of my boys are knee deep in football practice, and before too long they'll keep me busy just attending their games. Once again I ask myself, where has the summer gone?

Last month's meeting was very well attended in spite of threatening thunderstorms. I want to thank Ed Bowes and Charlie Parmley for showing us the beginnings of the SX-300, Caryle Reinmuth for letting us view and telling us about his beautiful, flying Varieze, Terry Holsclaw for giving us a look at his Dyke Delta (excellent welding), Jim Debus for giving us a grand tour (with cookies and lemonade) of his perfect workmanship and great progress on the KR-2, and Ken Lange for exhibiting his Cavalier that he now has all together under one roof in his recently completed, beautiful shop. Ken says that now that he has a place to work, he's going to have some time to donate to his project and you can bet that his workmanship will be outstanding. I hope this tour will give those of you who are seriously considering building a project, the needed motivation to get started. For 8 years I have been helping Harlo Build his T-18 and I can tell you that there is great satisfaction and pride in seeing the plane take shape. Also, over the years, I have met many wonderful people and Harlo and I have become very good friends.

Jim Fix
